PROJECTS

Personal Cloud | *Nextcloud, Docker*

- Developing a private cloud solution using Nextcloud, with authentication and encryption to ensure data security. Configured intuitive file-sharing interfaces, showcasing expertise in cloud deployment, Docker, Linux systems, and data protection.

Workflow Management System | *AWS IAM & S3*

- Created a secure workflow platform with MongoDB, Node.js, and Express.js for employees and managers. Integrated password encryption with bcrypt, applied steganography to conceal sensitive data within images, and leveraged AWS S3 with IAM for secure storage and access control.

Solar System Explorer | *Next.js, React Three Fiber, Three.js, Tailwind CSS*

- Developed an immersive, interactive 3D solar system web application featuring high-fidelity planetary exploration, a realistic flight simulator, and real-time AI-powered chatbots for celestial education using Gemini.

Solar System Explorer | *Next.js, React Three Fiber, Three.js, Tailwind CSS*

- Developed an asynchronous full-stack AI application combining a secure, high-concurrency FastAPI backend with a responsive vanilla JavaScript architecture for complex data handling.
- Built an autonomous background agent system utilizing LLMs (Claude, OpenAI, Gemini) and PostgreSQL for storage to structure conversational context into persistent, queryable database memory.

SKILLS

Web: HTML, CSS, React.js, Node.js

Languages: C, Python, JS

Tools and platforms: AWS, Docker, Linux, Unix Scripting, SDLC, CI CD Pipelines, Gen AI tools, Video Editing Tools

Databases: MySQL, MongoDB

SOFT SKILLS

Problem Solving, Teamwork & Collaboration, Critical Thinking, Logic Building, Good Communication

WORK EXPERIENCE

Digital Marketing Executive | Digikraf

Dec 2025 – Present

- Automated internal workflows using AI tools and optimized server-side logic for CRM systems
- Designed high-performance UX interfaces for digital platforms with AI-driven design principles.
- Managed creative production by leveraging AI tools for video editing, graphic design, and branding collaterals, optimizing speed and quality of output.
- Spearheaded server administration and automated technical system management.
- Partnered with clients to deliver efficient, tech-driven project execution and scalable solutions.

Founder's Office | *The Divine Digital*

Aug 2024 – Oct 2025

- Engineered responsive WordPress architectures focusing on user experience and technical reliability.
- Developed high-impact digital content and video assets, achieving 100k+ views for multi-platform clients.
- Executed performance marketing by leveraging Gen AI tools and data analytics to optimize digital growth.

EDUCATION

Ajeenkya DY Patil University (ADYPU)

May 2025

Bachelor of Technology in Cloud Technology and Information Security

Pune, India

LANGUAGES

English, Hindi, Japanese, Gujarati, Marathi

INTERESTS / HOBBIES

Exploring latest technologies | Video editing | Badminton | Swimming | Trekking | Event organizing
